The Company hereby provides an explanation regarding PPT shares hitting the floor price for five consecutive trading sessions from 20 October 2026 to 26 October 2026, as follows:

- The stock market has experienced considerable volatility recently, with several declining sessions affecting the sentiment of the Company's shareholders. PPT shares hit the floor price for five consecutive sessions due to market supply and demand.
- The Company's business operations are also facing considerable difficulties due to the overall economic situation. The significant year-on-year decrease in the Company's profit after tax is another reason for the sharp decline in PPT's share price.

Petro Times Joint Stock Company undertakes to comply with all applicable laws and to maintain openness and transparency in all of its operations.

Yours faithfully,
